

Eupraxia Pharmaceuticals Reports First Quarter 2023 Financial Results

May 11, 2023

VICTORIA, BC, May 11, 2023 /CNW/ - Eupraxia Pharmaceuticals Inc. ("Eupraxia" or the "Company") (TSX: EPRX), a Phase 2 clinical-stage biotechnology company with an innovative drug delivery technology platform, today announced its financial results (prepared in accordance with International Financial Reporting Standards or "IFRS") and operational highlights for the first quarter ended March 31, 2023. All amounts are expressed in Canadian dollars unless otherwise indicated.

"In the first quarter of 2023, we continued to progress on our fully recruited Phase 2 trial of EP-104IAR in osteoarthritis as we move toward top-line data readout in late Q2," said Dr. James Helliwell, CEO of Eupraxia. "In addition, we commenced patient screening for our Phase 1b/2a trial of EP-104GI in eosinophilic esophagitis. Based on progress to date, this open-label study is now on track for interim data beginning to read out in the third quarter of 2023."

Selected Operational and Financial Highlights for the First Quarter

- Concluded the quarter ended March 31, 2023, with cash and cash equivalents of \$18.9 million. Eupraxia anticipates its current cash is sufficient to fund the Company through to the fourth quarter of 2023.
- Commenced patient screening in the Phase 1b/2a trial of EP-104 in adult patients afflicted with eosinophilic esophagitis, a rare disease that restricts the ability to swallow food and greatly impacts quality of life. The study now has five active sites in three countries.

First Quarter 2023 Financial Review

The Company continued to conduct its Phase 1b/2a in adult patients afflicted with eosinophilic esophagitis as well as prepare for top-line data readout in its 300-patient Phase 2 clinical trial of EP-104IAR for osteoarthritis, which completed enrollment in 2022. Operating expenses for the three months ended March 31, 2023, were \$4.8 million, versus \$3.4 million in the prior-year period. The increase was primarily driven by increased costs associated with the ongoing Phase 2 clinical trials.

The Company incurred a net loss of \$5.0 million for the three months ended March 31, 2023, versus \$3.8 million for the three months ended March 31, 2022. The increase in net loss was primarily driven by increased costs associated with ongoing Phase 2 clinical trials.

The Company had cash and cash equivalents of \$18.9 million as of March 31, 2023. Management believes its current cash is sufficient to fund the Company through to the fourth quarter of 2023.

As of March 31, 2023, the Company had 21,743,645 common shares issued and outstanding.

Financial Statements and Management Discussion & Analysis

Please see the unaudited interim condensed consolidated financial statements and related Management's Discussion & Analysis ("MD&A") for more details. The unaudited interim condensed consolidated financial statements for the quarter ended March 31, 2023, and related MD&A have been reviewed and approved by Eupraxia's Audit Committee and Board of Directors. About Eupraxia Pharmaceuticals Inc.

Eupraxia is a clinical-stage biotechnology company focused on the development of locally delivered, extended-release alternatives to currently approved drugs. Each of Eupraxia's product candidates has the potential to address therapeutic areas with high unmet medical need and strives to provide improved patient benefit by delivering targeted, long-lasting activity with fewer side effects.

Eupraxia's lead product candidate, EP-104IAR, is currently in Phase 2 development for the treatment of pain due to osteoarthritis of the knee. The EP-104 platform has expanded into gastrointestinal disease with the launch of a Phase 1b/2a program to treat eosinophilic esophagitis. Eupraxia is also developing a pipeline of later- and earlier-stage long-acting formulations. Potential pipeline indications include candidates for both other inflammatory joint indications and oncology, each designed to improve on the activity and tolerability of currently approved drugs. For further details about Eupraxia, please visit the Company's website at: www.eupraxiapharma.com.

Notice Regarding Forward-looking Statements and Information

This news release includes forward-looking statements and forward-looking information within the meaning of Canadian securities laws. Often, but not always, forward-looking information can be identified by the use of words such as "plans", "is expected", "expects", "scheduled", "intends", "contemplates", "anticipates", "believes", "proposes" or variations (including negative and grammatical variations) of such words and phrases, or state that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved. Forward looking statements in this news release include statements regarding the Company's business strategies and objectives, including current and future plans and opportunities, expectations and intentions; statements regarding the Company's Phase 2 clinical trials; the ability of the Company to execute on its business strategy; the Company having sufficient resources, including anticipated funding from its current cash; the advancement of opportunities stemming from the Company's delivery technology and expansion of pipeline designs; the resourcing and funding of programs; the expectations regarding Mr. Brennan and his role as Chief Business Officer; the securing of potential partnership opportunities; expected availability of data; expected trial timelines for interim and top-line data readout; the potential of Eupraxia's product candidates; the Company's expectations regarding its product designs, including with respect to patient benefit, duration and effectiveness; the results gathered from studies of Eupraxia's product candidates; the potential for the Company's technology to impact the drug delivery process; the competitive advantages of the Company's technology; the benefits to patients from the Company's drug platforms; the translation of the Company's technologies and expansion of its offerings into clinical applications; and the use of the terms "EP-104IAR", "EP-104GI", and "EP-104" in future disclosure.

Such statements and information are based on the current expectations of Eupraxia's management, and are based on assumptions, including but not limited to: future research and development plans for the Company proceeding substantially as currently envisioned; industry growth trends, including with respect to projected and actual industry sales; the Company's ability to obtain positive results from the Company's research and development activities, including clinical trials; and the Company's ability to protect patents and proprietary rights. Although Eupraxia's management believes that the assumptions underlying these statements and information are reasonable, they may prove to be incorrect. The forward-looking events and circumstances discussed in this news release may not occur by certain dates or at all and could differ materially as a result of known and unknown risk factors and uncertainties affecting Eupraxia, including, but not limited to: the Company's limited operating history; the Company's novel technology with uncertain market acceptance; if the Company breaches any of the agreements under which it licenses rights to its product candidates or technology from third parties, the Company could lose license rights that are important to its business; the Company's current license agreement may not provide an adequate remedy for its breach by the licensor; the Company's technology may not be successful for its intended use; the Company's future technology will require regulatory approval, which is costly and the Company may not be able to obtain it; the Company may fail to obtain regulatory approvals or only obtain approvals for limited uses or indications; the Company's clinical trials may fail to demonstrate adequately the safety and efficacy of our product candidates at any stage of clinical development; the Company may be required to suspend or discontinue clinical trials due to side effects or other safety risks; the Company completely relies on third parties to provide supplies and inputs required for its products and services; the Company relies on external contract research organizations to provide clinical and non-clinical research services; the Company may not be able to successfully execute its business strategy; the Company will require additional financing, which may not be available; any therapeutics the Company develops will be subject to extensive, lengthy and uncertain regulatory requirements, which could adversely affect the Company's ability to obtain regulatory approval in a timely manner, or at all; the impact of the COVID-19 pandemic on the Company's operations; and other risks and uncertainties described in more detail in Eupraxia's public filings on SEDAR (www.sedar.com). Although Eupraxia has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements and information, there may be other factors that cause actions, events or results to differ from those anticipated, estimated or intended. No forward-looking statement or information can be guaranteed. Except as required by applicable securities laws, forward-looking statements and information speak only as of the date on which they are made and Eupraxia undertakes no obligation to publicly update or revise any forward-looking statement or information, whether as a result of new information, future events or otherwise.
